### Project Details

e-testing deliver confidence in IT projects across all industries and verticals. We are mindful of the way you work and have the agility to meet the specific requirements of your organisation. In an industry of ever changing needs, provide specialist testing solutions that improve efficiency and mitigate project risk.

We offer software testing services – both remotely from our UK test lab, and on site with our customers. We specialise in QA & software testing services for web and mobile, functional application testing, performance testing and test automation within agile and waterfall environments.

#### Information Technology Industry – BFSI & HealthCare clients:

- Testing Services
- Application Development Technologies
